SUMMARY

Passionate and detail-driven Computer Science graduate with a strong grasp on modern web development, Java-based backend systems, and data analytics tools. Seeking an opportunity in a growth-oriented tech firm where I can apply my problem-solving mindset and development skills to real-world challenges.

EDUCATION

B.Tech – Computer Science & Engineering	2021 - 2025
Baderia Global Group of Institute of Engineering & Management, Madhya Pradesh	
Senior Secondary (Class XII)	2020-2021
Ashoka Hall Senior Secondary School, Jabalpur, MP	

TECHNICAL SKILLS

- Language : HTML , CSS , Java
- Frontend : JavaScript, Bootstrap, React
- Database: MySQL , JDBC
- Backend : JAVA , SERVLETS
- Tools : Git, VS Code, Power BI, Tableau
- Framework : Springboot , Hibernate , JUNIT
- Soft Skills : Problem Solving, Teamwork, Communication ,Leadership

PROJECTS

Secure Online Banking System

Jan 2025

Tech Stack: Java, JDBC, Servlets, MySQL

- Built a secure, role-based banking platform for users and administrators.
- Integrated registration, login, fund transfer, deposit, and withdrawal features.
- Implemented exception handling and used MySQL for reliable data persistence.

API Testing Tool

Tech Stack: React, JavaScript

- Developed a tool to test RESTful APIs with dynamic inputs for headers, parameters, and body.
- Displayed real-time JSON responses with status codes and error handling.
- Enabled saving and re-execution of previous test cases for improved productivity.

Bharat Bhraman

April 2025

Tech Stack: HTML, CSS, JavaScript

- Developed a visually appealing travel website focused on middle class traveller.
- Integrated Dharamshala travel section for budget friendly stay
- Enabled users to explore nearby places, cultural spots, and explore local food.
- Designed a dedicated section for government related travel policy
- Developed a visually appealing travel website focused on promoting tourism across India..

INTERNSHIP EXPERIENCE

- **NGO Intern – DAY Foundation** ([Link](#))
- Jan 2025 – Mar 2025
- Conducted weekend creative learning drives for children in slum areas.
- Created and delivered fun educational content to encourage school attendance.
- Supported online campaigns and volunteer coordination activities.

CERTIFICATION

- AWS CLOUD CERTIFIED ([LINK](#)).
- CISCO NETWORKING CERTIFIED ([LINK](#)).
- IBM WEB DEVELOPMENT

COURSE WORK

- Data Structures & Algorithms – Code optimization and logical problem-solving
- OOP in JAVA – Concepts of abstraction, inheritance, encapsulation
- Operating Systems – Memory management, scheduling, deadlocks
- DBMS – SQL queries, normalization, relational models
